

Product Operating Model Transformation

Role: Product & Service Improvement Specialist

Company: Vodafone Group

Challenge

The Vodafone Business Product organization needed a more consistent operating model to improve accountability, decision-making, and delivery speed across product teams.

My Role

I contributed to the transformation of the Product Operating Model by supporting portfolio planning and governance activities.

Actions Taken

- Analyzed FY25-FY27 portfolio planning approaches
 - Developed planning guidance materials
 - Supported operating model design workshops
 - Contributed to defining product governance standards
 - Collaborated with Product Leaders and Portfolio Management teams
-

Results

- Improved clarity around planning processes
 - Increased alignment between strategic objectives and execution
 - Supported faster and more predictable product delivery
 - Enhanced portfolio governance capabilities
-

Skills Demonstrated

- Product Operating Models
- Portfolio Management
- Strategic Planning
- Product Governance
- Business Analysis
