

# Vodafone XR Platform Development

**Role:** Junior Digital Solution Designer

**Company:** Vodafone Group

## Challenge

Emerging XR initiatives required scalable technical solutions aligned with business objectives while maintaining security, stability, and usability.

---

## My Role

I supported the design and implementation of digital solutions within Vodafone's XR ecosystem.

---

## Actions Taken

- Developed technical solution blueprints
  - Coordinated implementation activities
  - Worked with engineering, AI, and computer vision specialists
  - Gathered business requirements and translated them into technical specifications
  - Ensured alignment with enterprise architecture standards
- 

## Results

- Delivered secure and scalable XR solutions
  - Improved collaboration between business and technical teams
  - Supported successful implementation of innovation initiatives
- 

## Skills Demonstrated

- Solution Design

- Digital Product Development
- Enterprise Architecture
- XR Technologies
- Technical Stakeholder Management
